## DYEING AUXILIARIES

### Dye-bath Conditioner/Levelling Agents

PRODUCT	IONICITY	DOSAGE (gpl)	CHEMISTRY	APPLICATION
RESOTEX LVL	ANIONIC	0.5 - 1.2	Aromatic acid condensate	Levelling agent & Dye bath conditioner for dyeing with reactive dyes on cellulosic fibres. Good chelating & dispersing properties.
RESOTEX DBC	NONIONIC	0.5 - 1.5	Aliphatic polyglycol ether	Levelling agent & Dye bath conditioner for dyeing with reactive dyes on cellulosic fibres. Good chelating & dispersing properties.
RESOTEX 400C	NONIONIC	0.5 - 1	Aliphatic polyglycol ether	Levelling and stripping agent for disperse dyes in exhaust, thermosol dyeing & printing.
RESOTEX 6000	AMPHOTERIC	0.5 - 1	Selected blend of EO condensates	Levelling agent for Reactive, Vat & Sulphur dyestuffs.

### Wash-off Agents

RESOTEX WO	ANIONIC	0.5 - 1	Organic acid derivative	Clean & Complete wash-off post dyeing & printing by exhaust, pad-batch or continuous process with Reactive, Direct, Vat, Sulphur, Naphthol & Indigo dyes, thus improving depth, levelness and wet & dry rubbing fastness.
RESOTEX WODD	NONIONIC	2 - 4	Aliphatic polyglycol ether	Reduction clearing & carbonising of polyester & blends printed with disperse dyes. Also for printed polyamide, wool & silk with acid and metal complex dyes.

### Dye-fixing Agents

RESOTEX FFC	CATIONIC	0.5 - 1.0	Aliphatic polyamine derivative. Formaldehyde free.	Wet fastness & perspiration fastness improver for Direct & Reactive dyes
RESOTEX NFD	CATIONIC	0.5 - 1.5	Aliphatic polyamine derivative. Formaldehyde free.	Wet fastness & perspiration fastness improver for Direct & Reactive dyes
RESOTEX DFA	CATIONIC	0.5 - 1.5	Nitrogenous condensation product	Wet fastness & perspiration fastness improver for Direct & Reactive dyes

### Acid Buffer for Polyester Dyeing

PRODUCT	IONICITY	DOSAGE (gpl)	CHEMISTRY	APPLICATION
RESOTEX ABP	ANIONIC	1 - 2	Selected organic compounds. Phosphate free.	Acid buffer & dispersant for polyester & blends with cellulose.

### Dye Migration Accelerator

PRODUCT	IONICITY	DOSAGE	CHEMISTRY	APPLICATION
RESOTEX LDM	NONIONIC	0.5 - 2 %	Aromatic hydrocarbon	Dye migration accelerator and levelling agent for dyeing of polyester and blends with disperse dyes. Dye Carrier for disperse dyes.
