## SIZING

### Sizing

PRODUCT	IONICITY	CHEMISTRY	APPLICATION
RESOTEX AAC	NONIONIC	Acrylic polymer (active content: 20±5%)	Acrylic sizing agent with strong adhesion to natural and synthetic fibers. Strong, smooth & pliable size film less effected by relative humidity & temperature. Does not contain surfactants therefore does not absorb moisture excessively. Very easy to desize.

## ANTI BACK-STAINING

### Anti Back-staining

PRODUCT	IONICITY	CHEMISTRY	DOSAGE (%)	APPLICATION
RESOTEX ABS	NONIONIC	Selected blend of alkoxyates	1 - 2	Excellent anti back-staining agent for indigo/vat dyed denim/woven fabric. Excellent soil suspending and chelating properties. Low foaming.
RESOTEX DIS	ANIONIC	Phosphate ester	1 - 2	Excellent anti back-staining agent for indigo/vat dyed denim/woven fabric. Excellent soil suspending and chelating properties. Low foaming.
